

COLORADO STATE UNIVERSITY

Rexel supplied competitively priced products in compliance with procurement guidelines through their relationship with E&I Cooperative Services.

PROJECT SUMMARY

Rexel's partnership with Colorado State University (CSU) has expanded from supplying electrical components to lighting project support through CSU's membership with E&I. CSU is able to enhance the quality of their educational facilities, creating a better learning environment while investing in sustainable, and innovative infrastructure that supports academic success.

E&I COOPERATIVE SERVICES

E&I is a non-profit purchasing cooperative (GPO) specifically for the education industry that offers competitive contracts that lower costs and guarantee compliance.

E&I provides CSU with access to thousands of electrical products at exclusive member pricing, leveraging Rexel's knowledge, experience, and passion to meet the specialized needs of educational procurement.

STRATEGIC SOURCING

- **Cost Savings and Efficiency Gains:** Leverage data and market intelligence to negotiate better terms and reduce your total cost of ownership.
- **Improved Supplier Relationships:** Foster long-term partnerships with key suppliers for better service.
- **Risk Mitigation and Compliance:** Identify and mitigate supply chain risks while ensuring full regulatory compliance.
- **Support for Institutional Goals:** Align procurement with sustainability, diversity, and local economic development initiatives.

RESULTS & BENEFITS

BRANCH SUPPORT

CSU receives direct support from Rexel for their electrical products. They are currently collaborating on a lighting project with tailored solutions provided by Rexel.

DEVELOPMENT

Thanks to the high-quality and competitive pricing offered through E&I contracts, CSU is committed to investing in IT Infrastructure, Engineering Tech, and Undergraduate Lab.
